## Mineral of the Month: Emerald

Emerald is a wonderful healing stone that is perfect for this new year. It is good for commitment because it is a stone of affirmation, infinite patience & integrity. It opens the heart chakra and has a calming effect on our mood, inviting compassion and balance to enter our lives. We've been using emerald to help us keep our New Years resolutions and remember to love one another. The simple act of holding or placing a stone with intention tells the universe you are ready to receive its energy.

## Looking Forward

We're excited to see what the new year has in store for us. We look forward to a continuation of our bi-weekly instagram live sales, to rewarding interactions with our friends, followers, and patrons, and wish that everything aligns with harmony and peace in times of uncertainty. May we all have a positive new year.
